occurrence all the way through, however. For the first four incings it was a rattling good contest, then Goehler, the chief exhibition master, began to say funny things. In other words and to make things plain so that no misunderstanding will result, he was "rotten." Balls he called stilkes, and strikes ne called balls; BELLE VERNONTES strikes, and strikes ne called balls: oits on bases he called safeties, the ormer being the most noticeable. Fibally, Mack, who was pitching splendid hall when his umps would allow, got mad and quit in the middle of the fourth inning. Osborne then took the mound but soon learned the state of matters and the best he could do was to lob the ball over at the plate and let the Monties smash it. After the umpire acted so crookedly some of the Cherubs began to play horse and helped in giving the game away. Fairmont followed the example and tried to do laughable things.

Charleroi scored two ir the second on a single, an error and a three bagger; in the sixth on two doubles, in the eighth O'Hare got his home run.

Fairment got four runs in the fifth Kennedy's Laxative Cough Syrup on three singles, a double and a fieldis especially recommended for er's choice. In the sixth they got children. It tastes nearly as good as three on three singles and a base on eod. double and two errors.

One of the Strange Legends of the Yuma Indians.

CAUSE OF THE GREAT STORM.

The Tipping Up of the Earth Caused the Deluge Which Engulfed the World-The Mysterious Ark and the Escape of the Chosen Few.

To this day the great deluge recorded in the Bible is a mystery to the North American Indian. He will not be led to believe that the flood was brought about by the sins of man. He is equally unwilling to believe that it was the work of an angry God, as he could & not see how the Almighty should be so unjust as to punish the Indians of America for the naughty things of a race of people across the ocean. Another reason which makes it still more difficult for the Indian to believe that the flood was a punishment to the world is the fact that with him there is no sin. In his language there is no such word, nor does he expect to be punished for any of his acts.

But though there is no equivalent to the word sin in the Indian language (nor in the Indian mind until the Christians came), the Indians have their philosophy in regard to what is teachers (most of whom claimed to have been taught the philosophy of life and its laws directly by disembodied spirits or by ethereal beings | from other planets) taught that as man lives here so is his life hereafter. If he is serene and contented here, so | dity. he will be there, etc.

The deluge, as described by the few who were miraculously saved, was the have been compelled to take out any more grandly terrible in that it came on suddenly. From the highlands occupied by the Indians they saw the waves of the sea sweep in upon the blow from all and in all directions. The storm caused huge waterspouts which appeared over the wild ocean as far as the eye could see. The terrified people fled to the mountains, but ru'e in this country. these were all soon to be submerged, (Mountain of the Moon), yet today it is works both ways; and that there not a very high mountain.

The boat rested first at a place called Avee-qua-lul (mountain peak), now Pilot Knob, on the border of Mexico. There was a mesa on the top of this mountain, though at this day it does not exist, and on this mesa the Indians first celebrated their delivery. This the; did by playing sacred games. charting sacred songs, etc. On rocks at the foot of this peak there are hieromade by those who survived the flood. I

The story of the event was Mail carried to all the near tribes, and since then Indians passing the place fear to

even look leisurely at the log. A reason given by the Indians as the probable cause of the flood was that there was a tribe of Indians who, like Columbus, believed that the earth was not flat, but round, and to prove whether this theory were true thousands from the different tribes banded together and started out on a journey to find the edge of the earth if it was flat. The flood occurred soon after the Indians started on this journey, so that they really believed that those adventurers had reached the edge of the earth and their weight had tipped the earth to such an extent as to cause the water to rush in on the land,-Los Angeles Times.

Half an liour later Lida Graves and her maid entered a fashionable restaurant, secured a table in a cool corner of the room and ordered a light luncheon. She had come into town at the earnest plea of old Mr. Brown, whom she had seen injured by the touring car and had testified in his behalf.

Sipping her iced tea, she glanced about the room and, to her surprise, at a nearby table saw the two lawyers who half an hour ago had been so personal in their remarks to each other. The "pinheaded idiot" and the "lantern jawed attorney" had evidently decided to bury their differences in a friendly meal. Mr. Roe caught her eye and in a few moments came up to her table.

"May I bring my friend Mr. Holland over to meet you under more favorable circumstances?" he asked.

"You may not," auswered Lida with some spirit. "That man is a brute. Why, Mr. Roc, he accused me of-well, of actually telling an untruth on the

The Wisdom of Miss Susan

By CLARISSA MACKIE.

Copyrighted, 1908, by Associated Literary Press.

"Your Aunt Susan was a remarkable woman, Miss Molly," said the lawyer, looking keenly at the black gowned young woman before him, "and we must therefore not be surprised that she should have made a remarkable will." He tapped a folded document that lay on the table.

"I am quite sure Aunt Susan has made a wise disposition of her property. I only wish she had been spared longer to enjoy it," said Molly Fancher, her pretty eyes red from weeping.

"As you are the only relative Miss Wood had, and as your name is the only one mentioned in her will, I may as well proceed to make you acquainted with its contents. Ahem!" The lawyer unfolded the document and held it close to his spectacled eyes as be read slowly and impressively:

"I give and bequeath all the property of which I may die possessed, as per items below, to my beloved niece, Mary Wood Fancher, on condition that she does not become the wife of Ralph Newcomb. If the"-

"Stop, please," said Molly quietly. She had arisen and now stood, with pale face and flashing eyes, beside him. You need not finish reading the will, Mr. Jones. The conditions are preposterous. I can hardly believe that my déar Aunt Susan could have asked such a thing of me. She knew of my engagement to Mr. Newcomb and sanctioned it. She welcomed him into the family as a son and"— Sobs choked her utterance, and she pressed a handkerchief to her trembling lips.

"Pray compose yourself, Miss Molly," said the perturbed lawyer. "As I said before, your Aunt Susan was a remarkable woman, and"—

"The will cannot interest me now," said Miss Fancher gravely. "I intend to marry Mr. Newcomb at the appointed time, and you may follow out the terms of the will-whatever they are. How soon will it be necessary for me to vacate the house?"

"Not under six months, as a generous income is provided for that period. In case you refuse to comply with the conditions of the will, Miss Wood has which definitely disposes of the estate." Molly bowed soberly. "I think my aunt must have concealed some preju-

dice against Mr. Newcomb. I hope-I am sorry". Her voice faitered again. "You are sure you are not making a mistake. Miss Molly 7 Pardon me, but it is a large estate—about a million."

"I don't care if it is ten millions," retorted Molly, andignation drying her tears. "I would not barter my love for any amount." She blushed warmly as she met the lawyer's honest, admiring glance and drew down her black veil. Good afternoon, Mr. Jones, I am quite sure you will execute my aunt's last wishes in the same conscientious manner that you have always handled her luterests." A moment later she had passed from the building and entered her waiting carriage.

When she entered the sober, old fashioned mansion that had been the home of Susan Wood for balf a century and which had been her own birthplace Molly Fancher's overstrained nerves gave way for the first time since the lingering illness of Miss Wood had resultéd in her death a veek before.

In spite of the old lawyer's repeated requests that she should hear the terms of her aunt's will the grief stricken girl had refused admittance to Mr. Jones until this morning, when she had roused herself from her sorrow and made ready to take upon herself the responsibilities that she had been been very happy, Ralph, dear, even if taught to believe would be bers after Miss Wood's death.

The reading of the will was a shock to her. The loss of the inheritance was as nothing compared to the knowledge that her aunt had secretly cherished a dislike if not a distrust of Ralph Newcomb, Molly's accepted lover. It was this thought that rankled in the girl's mind all that long afternoon while she awaited his coming in

the evening. "Dear heart," he cried cheerily as he entered the drawing room, "If you shut yourself up in this gloomy house much longer without companionship save that of Mrs. Rogers, why, I shall"-He paused as he turned her face to the soft light of the lamp. "Something unusual has happened, Molly. Tell me

what it is." She smiled bravely at him and stilled her trembling lips. "I have been to hear Aunt Susan's will read," she said | ter?" siowly.

"Well?". Molly found herself listening for some note of anxiety or even unusual interest in his tone as he asked the question that he had always accorded when riches was a topic of conversation, and she sighed relievedly.

"She leaves everything to me-condi-

"And the conditions?" "That I do not marry you!" The roftly uttered words startled him strangely. His arms loosened their held upon her and dropped to his sides. "You cannot meant it. There must be

some mistake, Molly," he said gravely; 'Miss Wood surely did not distrust the quality of my love for you. It is very

"Yes!" "Do you-know, what you are giving

"I am only sorry that I am bringing you nothing but love, dear," she said earnestly,

"We can get along on that," he said grimly, "with a few little added frills in the way of ment and drink that I may be able to worry out of the editors, but-it isn't fair to you, darlingto leave all this." He looked about the richly furnished room and then back into her eyes.

"You cannot believe that I really love you, Ralph," she murmured protestingly.

"I do now, sweetheart," he said, kissing her lips reverently, and then. few moments later, he added, "I shall prove my trust in your love, Molly-will you marry me at oncethis week?"

"Yes, Italph," she said.

It was perhaps six months later that Lawyer Jones mounted the last long step flight of stairs that led to the Eyrie, as Ralph Newcomb called his Studio apartment. He looked about the bare, uncompromising hall that could not be dignified by the name of corridor and then rapped smartly on the door in front of him.

Molly opened the door-the same Molly who had nevel lifted a dainty finger in household matters. Her brown hair was in sweet confusion about her pink cheeks and the sleeves of her linen frock were pushed above her elbows. A great gingham apron enveloped her slim figure.

She welcomed him with all her old charm of manner and ushered him into long, many gabled room, where Ralph Newcomb sat pale and weary eyed before a glowing fire.

"My husband has been very ill," said Molly seriously as the men shook hands cordially. "He has been working too hard and- But he is so much better now. It has been a most trying siege for him." Her red lips closed firmly, and the old lawyer guessed at the unuttered story that lay behind those lips. A glimpse of the bare studio, the remains of a very simple meal. a portfolio of drawings on a chair, over the back of which was thrown Molly's coat and hat-it all spoke of poverty, and the soft of poverty that perhaps is hardest to bear.

The thought of lovely Molly Fancher trudging the streets in and out of editorial offices with a portfolio of drawings and never losing her bright, brave left a sealed document in my hands smile of hope and sweet content stirred the lawyer strangely.

"I have come to inform you of the final disposition of your late aunt's fortune," he said rather gruffly, adjusting his eyeglasses and taking an envelope from his pocket.

that," remarked Ralph smilingly. "Miss Susan gave us our knockout blow several months ago. You certainly haven't come to gloat over us, Mr. Jones? Eh. Molly?

She laughed softly. "We are awfully poor, but we are likewise awfully happy, Mr. Jones. Poor Aunt Susan didn't know"-

"My dear young people," interrupted the lawyer gravely, "Miss Wood did know. In her youth she chose between love and riches, and she preferred the latter, and except for her little niece she was a very lonely and unhappy woman. She gaye Miss Molly the same choice, not that she distrusted either of you, but she did want you both to be sure of each other's love." He paused and cleared his throat as he rustled the document. "I will read: 'I give and bequeath my entire estate to be equally divided between Ralph Newcomb and his wife, Molly Fancher Newcomb' "-

"Poor Aunt Susan! I misjudged her so," cried Molly contritely when they had recovered from their amazement. "But I love to think that she had such faith in us both, after all! We have we have been poor." She moved to her husband's side and slipped her hand in

"We will never be any happier," he said solemaly.

Mr. Jones paused when he reached the lower entrance of the studio building and leisurely lighted a cigar. "Very wise for a woman-Miss Wood-very wise, indeed," he said thoughtfully.

Winning the Bet.

A London merchant who had a rather ruddy complexion. After "doing" Glasgow, had some time to wait for his train at St. Enoch station and bethought himself of a little joke.

"St. Enoch's! Dae ye no see the name abune the hotel there?"

Just then the train came in, and our English friend got comfortably scated in a third class smoker along with a few more passengers.

'These railway officials are about the worst. They can't be civil," remarked the Londoner.

"That's a confounded lee," said a Scotch farmer.

"Well," said the Londoner, "I'll bet five bob I don't get a civil answer from the first porter I ask a question of." "Done;" replied the old farmer.

Looking out, he spied his porter and, beekoning him over, asked in his most

polite tone: "Would you kindly tell me the name of this station, porter?"

Turner and the Doctor.

When Turner, the famous painter, was dying at Chelsea he sent in despair for a Ramsgate-doctor who had done him some good during his recent stay at that place and who, he hoped. might take a different view of his case from that which the London physicians had expressed. The doctor arrived and confirmed the opinion that the artist had very little time longer to live. "Wait a bit," said Turner to the doctor. "You have had nothing to eat and drink yet, have you?" "No, but that's of no consequence." "But it is," replied the painter. "Go downstalrs, and you will find some refreshment, and there is some fine brown sherry-don't spare it-and then come up and see me again." The doctor refreshed himself and then came back to the patient. "Now, then," said Turner, "what is it? Do you still think so badly of my case?" The doctor regretfully said he could not alter his former opinion. The artist shook his shoulders, turned his face to the wall and never spoke again! -Dundce Advertiser.

The game was not a laughable occurrence all the way through, however. For the first four innings it was a rattling good contest, then Goehler, the chief exhibition master, began to say funny things. In other words and to make things plain so that no misunderstanding will result, he was "rotten." Balls he called strikes, and strikes he called balls: outs on bases he called safeties, the outs on bases he called safeties, the former being the most noticeable. Finally, Mack, who was pitching splendid hall when his umps would ailow, got mad and quit in the middle of the fourth inning. Osborne then took the mound but soon learned the plate and let the Monties smash it. After the umpire acted so crookedly away. Fairment followed the ex-

A Wash Twice a Year.

A charming Hungarian countess once said to me. "What is so nice! about the men from England is that they look so clean, as if they had just come from a swim." Of course we pride ourselves on our morning tubs, splash and splutter and shiver and polish up with rough towels. "What dirty people those English are," remarked an Italian, "when they find it necessary to wash all over every day! Why, I only wash twice a year?" I have met Chinese who regard washing all over as a proceeding decidedly improject. A Chinese is washed when he is born, and he has no other altogether wash till he is dead. But we British people have adopted cleanliness only of recent years. Small houses have their bathrooms, but very few houses built over half a century ago were provided with bathrooms. I suppose those must have been the days of the Saturday night wash in the kitchen. Certainly our gay cavalier ancestors in silks and ruffles must have been a dirt; gang. STORY OF THE FLOOD

One of the Strange Legends of the Yuma Indians.

CAUSE OF THE GREAT STORM.

The Tipping Up of the Earth Caused the Deluge Which Engulfed the World-The Mysterious Ark and the Escape of the Chosen Few.

To this day the great deluge recorded in the Bible is a mystery to the North American Indian. He will not be led to believe that the flood was brought about by the sins of man. He is equally unwilling to believe that it was the work of an augry God, as he could not see how the Almighty should be so unjust as to punish the Indians of America for the naughty things of a race of people across the ocean. An- 🍒 other reason which makes it still more difficult for the Indian to believe that the flood was a punishment to the world is the fact that with him there Consultant was a part with him there is no sin. In his language there is no such word, nor does he expect to be

The deluge, as described by the few who were miraculously saved, was the have been compelled to take out any more grandly terrible in that it came on suddenly. From the highlands occupied by the Indians they saw the waves of the sea sweep in upon the land and recede, only to advance with immensely increased volume and stupendously huge breakers. Then there came a terrific storm that seemed to blow from all and in all directions. The storm caused buge waterspouts which appeared over the wild ocean as far as the eye could see. The terrified people fied to the mountains, but function and changing sides; too near; these were all soon to be submerged. with the exception of one. This mountain which alone remained uncovered by the flood is called Avec-heilah (Mountain of the Moon), yet today it is not a very high mountain.

For awhile before the mountains became submerged there was a great calm, and a dense fog covered the earth. Then suddenly a mighty boat appeared to the awed view of the Indians. They could only conclude that the mysterious boat, having fulfilled its mission of preserving a few of their race, had disappeared as mi-

raculously as it had appeared. The spot where the mysterious boat, or ark, had rested was marked by the Indians placing there a huge log. They called the place Qual-jo-para (boat's resting place). This spot is held sacred by the Indians, who will seldom point; if the stone slips out of his hand the it out to strangers. The story of the event was | Mail. , carried to all the near tribes, and since then Indians passing the place fear to even look leisurely at the log.

A reason given by the Indians as the probable cause of the flood was that there was a tribe of Indians who, like Columbus, believed that the earth was not flat, but round, and to prove whether this theory were true thousands from the different tribes banded together and started out on a journey to find the edge of the earth if it was flat. The floor occurred soon after the indians started on this journey, so that they really believed that those adventurers had reached the edge of the earth and their weight had tipped the earth to such an extent as to cause the water to rush in on the land. Bathing an Elephant.

If there is one thing which an elephant enjoys above all things else, it is his bath. In India elephants are used to draw the great guns of the heavy batteries. They take their baths in the barracks at the troughs where they drink, and they behave much better about it than many children. They have to lie down and be patient while they are washed by their attendants. They turn themselves about very promptly to suit their convenience. The attendant rubs the hide with a piece of stone instead of a sponge, and trunk and hands it back. After they have been well scrubbed the elephants give themselves a shower bath, using their trunks to dash the water upon t

Clever Birds.

A gencienan tells the following in regard to the cleverness of two goldfluches upon which he kept a close watch while they were building a nest on a small branch of a tree. When the nest was finished he noticed that the weight of the birds and the eggs was too great for the strength of the sunporting branch. The goldfinches also perceived that the nest would fall un-

Judge Sanford was hearing a case in the — municipal court. The witness in the chair had just been sworn in, giving her full name as Lida Graves. Russell Roe, counsel for the plaintiff and an old friend of the Graves family, had asked her to tell just what she had seen regarding the accident when Mr. Brown had been run down by a large red touring car some two months before. He asked a few direct questions and then turned her over to the lawyer for the other side.

Hugo Holland, counsel for the owner cross examination, and when her great his eyes looked helplessly into his he almost felt the case was lost.

"What did you say your name was?" asked Holland, cloundering about for a leading question.

"What do you do for a Evelhood?" foliowed up Holiand.

Lida turned to the kindly fated judge as if for explanation, and over his face came a sinister smile.

"He means are you a working woman?" explained the judge. Then, turning to Holland, he scowled and continued: "I wish the counsel would stop this temfoolery and ask questions pertaining to the case. Miss Graves

witness to repeat that statement?" interposed Roe for the other side. This started a warfare of objections

and exceptions. The two lawyers and the judge became involved in legal technicalities, Holland asking one question and Roe objecting, the judge seemingly sustaining all objections. The lawyers indulged in personalities While the law is seeking to punish and the judge pounded for order.
